

# A Charming Listed Building with High Tech Facilities

We are pleased to announce exciting news for Blockley and surrounding communities. Thanks to **Gigaclear**<sup>®</sup>, Blockley's Little Village Hall now has the best business broadband package available in the Cotswolds. Our upload & download speeds are a massive **900mbps**. Compare this with average local download and upload speeds of 80 & 20 mbps respectively and the opportunities for business and community use seem limitless.

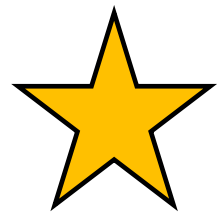

Perhaps as a local business you need to impress new clients or have been struggling to hold mixed virtual/live meetings. The heritage building's intimate environment provides an attractive meeting suite for a presentation or training session. It is also really useful as a "hideaway" workspace for people working from home who need privacy and freedom from domestic distractions or who just need a quiet offsite space to work on that important project.

For Community or Family Groups why not get in contact with friends and family in other parts of the world or have a remote party for a family event (birthday, christening, wedding or funeral). Our Smart TV means you could download a favourite film to watch with friends over a glass of wine or perhaps enjoy that special sporting event with fellow fans. Our characterful meeting place is in a quiet residential area making it ideal for private counselling or one-to-one life coaching sessions.

Why not come along to see what we have to offer?

Special introductory offer: £10 per hour  
for Hall hire plus broadband.
